

*“In our business, downtime means lost revenue. With Geoforce’s Maintenance Manager, we limit the amount of time our equipment is inactive by tracking whether service is done on time and storing the records where they are easily accessible when needed for oversight.”*

**Matthew Boykin,**  
BIG D COMPANIES

### Common Applications:

- Lifting and Rigging Inspections
- Visual Inspections
- Load Tests
- Annual Inspections
- Non-Destructive Testing
- Magnetic Particle Inspections
- DNV 2.7.1 Certifications
- Safety Inspections
- DOT Inspections
- Tank Cleaning
- Certification Records

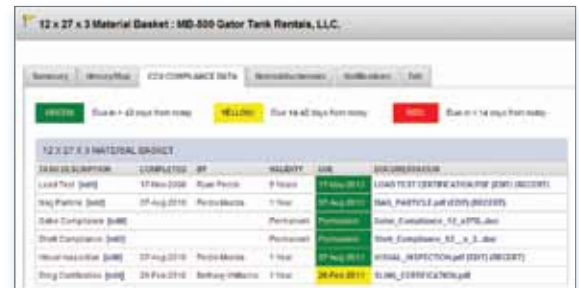

### Simplifies Operations

Geoforce helps you simplify your operations with a common management platform for the thousands of documents and tasks associated with keeping your equipment compliant. Store documents like sling inspections, load tests and certificates securely online, and receive automated alerts when action is required. You can also print any documents associated with an asset or group of assets.

### Ensure Compliance

Even with thousands of assets located around the world, you can view overall compliance status by asset group (work cell, equipment type, etc.), and receive automatic Excel reports by email that show upcoming, current or past due compliance tasks. You can even see compliance-related metrics across your entire organization.

### Collaborate with Third Parties & Employees

Service providers may upload documents and update tasks directly into Geoforce, and Geoforce users may share compliance details with clients for selected assets. Everything is online so field users and management, who may be hundreds of miles away, have access to the critical information they need, any time of day.

### Saves Time and Labor

Geoforce’s Compliance Manager and Maintenance Manager solutions reduce the time and labor costs associated with managing the thousands of documents and tasks associated with regulatory compliance.

**Geoforce keeps you in control of your assets by helping you stay on top of maintenance, inspections and testing.**

*Geoforce gives you control over your enterprise assets and the assurance they are being efficiently tracked and managed. Our intuitive, reliable and scalable technology provides on-demand access to unique operational insight.*
