

RENTAL MANAGER

ELIMINATE INVOICE DISPUTES THROUGH INDISPUTABLE EVIDENCE

With GeoForce Rental Manager, rental equipment companies can manage all of their rental assets through a centralized application and eliminate invoice disputes. Rental customers can rest assured that every rental ticket is supported by GPS tracking data and rental companies can verify that every invoice is both complete and accurate before it is sent.

- ✓ View rental statistics and location information all on one screen
- ✓ Integrate rental location with in-house or third party rental systems
- ✓ Quickly verify rental invoices with indisputable location data
- ✓ Locate assets on rent and audit billing based on GPS location
- ✓ Identify every rig, well, platform and custom job site with GIS data
- ✓ View days on site for all assets

Filter list by compliance or equipment type, location and other variables
